Information Security Statement

Insulation Technology Group US LLC

ITG treats the security of its information, systems and customer data as a core management responsibility, overseen by a dedicated security lead at group level.

Information security at Insulation Technology Group is led by **Peter Blaschke, Global Director IT & Information Security**, who is responsible for the group's security strategy, controls and incident response across all ITG entities, including LAPP Insulators, PPC Insulators and Cerisol. The function operates under ITG's cybersecurity strategy and is supported by 24/7 managed detection and response and continuous monitoring of the group's external systems.

Security concerns, suspected vulnerabilities in ITG websites or systems, or misuse of ITG accounts can be reported to **security@insulationtg.com**. Reports are acknowledged and handled confidentially. Questions on the processing of personal data are covered in our Imprint & Privacy Policy at insulationtg.com.

This statement forms part of ITG's Compliance Management System and complements the ITG Code of Conduct, section 3.2 "Data protection and data security".
